INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and City Council
City of Terrell Hills, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the City of Terrell Hills, as of December 31, 2014, and for the year then ended, and the related notes to the financial statements, which collectively comprise City of Terrell Hills' basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

City of Terrell Hills' management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the City of Terrell Hills, as of December 31, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America (GAAP).

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, budgetary comparison schedule, and schedule of funding progress be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with evidence sufficient to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise City of Terrell Hills' basic financial statements. The individual comparative fund statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise City of Terrell Hills' basic financial statements. The statistical section is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Armstrong, Vaughan & Associates, P.C.
March 09, 2015

CITY OF TERRELL HILLS, TEXAS
 MANAGEMENT'S DISCUSSION AND ANALYSIS
 FOR THE YEAR ENDED DECEMBER 31, 2014

This section of City of Terrell Hills's annual financial report presents our discussion and analysis of the City's financial performance during the fiscal year ended December 31, 2014. Please read it in conjunction with the City's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

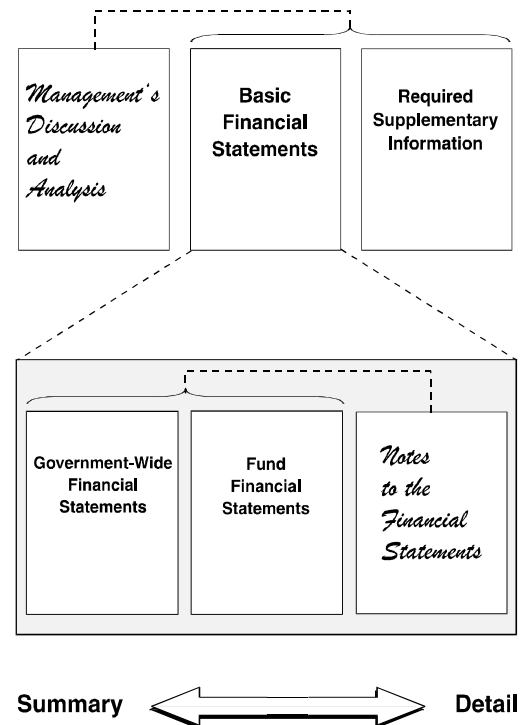

- The City's net position was \$12.8 million at December 31, 2014.
- During the year, the City's expenses were \$52 thousand less than the \$5.5 million generated in taxes and other revenues for governmental activities. The total cost of the City's programs increased \$130 thousand (2%) from the prior year.
- The general fund reported a fund balance this year of \$3.7 million.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts—*management's discussion and analysis* (this section), the *basic financial statements*, and *required supplementary information*. The basic financial statements include two kinds of statements that present different views of the City:

- The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the City's overall financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the government, reporting the City's operations in more detail than the government-wide statements.
- *The governmental funds* statements tell how *general government services* were financed in the *short-term* as well as what remains for future spending.

Figure A-1, Required Components of the City's Annual Financial Report

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

Figure A-2 summarizes the major features of the City's financial statements, including the portion of the City government they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

CITY OF TERRELL HILLS, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS (CONT.)
FOR THE YEAR ENDED DECEMBER 31, 2014

Figure A-2. Major Features of the City's Government-wide and Fund Financial Statements		
<i>Type of Statements</i>	Fund Statements	
	Government-wide	Governmental Funds
<i>Scope</i>	Entire City's government (except fiduciary funds) and the City's component units	The activities of the city that are not proprietary or fiduciary
<i>Required financial statements</i>	<ul style="list-style-type: none"> • Statement of net position • Statement of activities 	<ul style="list-style-type: none"> • Balance Sheet • Statement of revenues, expenditures & changes in fund balances
<i>Accounting basis and measurement focus</i>	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus
<i>Type of asset/liability information</i>	All assets and liabilities, both financial and capital, short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included
<i>Type of inflow/outflow information</i>	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter.

GOVERNMENT-WIDE STATEMENTS

The government-wide statements report information about the City as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid. The two government-wide statements report the City's net position and how they have changed. Net position—the difference between the City's assets and liabilities—is one way to measure the City's financial health or *position*.

- Over time, increases or decreases in the City's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the City, one needs to consider additional nonfinancial factors such as changes in the City's tax base

The government-wide financial statements of the City include the *Governmental activities*. Most of the City's basic services are included here, such as public safety, public works and general administration. Property taxes, sales taxes, franchise fees and charges for services finance most of these activities.

CITY OF TERRELL HILLS, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS (CONT.)
FOR THE YEAR ENDED DECEMBER 31, 2014

FUND FINANCIAL STATEMENTS

The fund financial statements provide more detailed information about the City's most significant *funds*—not the City as a whole. Funds are accounting devices that the City uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by State law and by bond covenants.
- The City Council establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The City has only one kind of fund as follows:

- *Governmental funds*—Most of the City's basic services are included in governmental funds, which focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed *short-term* view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explain the relationship (or differences) between them.

FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

Net position. The City's combined net position was \$12.8 million at December 31, 2014. Of this amount, \$6.2 million is unrestricted, representing resources available to fund the programs of the City next year. (See Table A-1).

FOR THE YEAR ENDED DECEMBER 31, 2014

GOVERNMENTAL ACTIVITIES

Changes in net position. The City's total revenues were \$5.5 million, a decrease of 1.4%. A significant portion, 81%, comes from taxes, while only 5.2% relates to charges for services. The total cost of all programs and services was \$5.5 million. (See Table A-2)

Increase (Decrease) in Net Position	<u>\$ 52</u>	<u>\$ 262</u>	<u>-80.0%</u>

Table A-3 presents the cost of each of the City's largest functions as well as each function's net cost (total cost less fees generated by the activities and intergovernmental aid). The net cost reflects what was funded by local governments as well as local tax dollars.

- The cost of all *governmental* activities this year was \$5.5 million.
- The amount that our taxpayers paid for these activities through taxes was \$4.5 million.
- Some of the cost, \$285 thousand, was paid by those who directly benefited from the programs.

Table A-3
Net Cost of Selected City Functions
(in thousands of dollars)

CITY OF TERRELL HILLS, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS (CONT.)
FOR THE YEAR ENDED DECEMBER 31, 2014

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

Revenues from governmental fund types totaled \$5.5 million, a decrease of 1.6%. Expenditures increased \$207 thousand or 3.8%.

General Fund Budgetary Highlights

Actual expenditures were \$193 thousand less than final budget amounts. Only the police department was over budget for the year by \$340.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of 2014 the City had invested \$22.8 million in a broad range of capital assets, including land, equipment, buildings, and vehicles. Significant additions in the current year include a new fire truck and continuation of the street project. (See Table A-4.) More information about the City's capital assets is presented in the notes to the financial statements.

Table A-4

Bonds Payable	\$ 9,785	\$ 10,215	-4.21%
Total Long-Term Debt	<u>\$ 9,785</u>	<u>\$ 10,215</u>	<u>-4.21%</u>

CITY OF TERRELL HILLS, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS (CONT.)
FOR THE YEAR ENDED DECEMBER 31, 2014

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

- The 2015 budget was prepared with an estimated assessed taxable value of \$1,218,298,076; an increase of 0.4% over the 2014 assessed taxable value. The property tax rate for 2015 is estimated to be \$0.370525 per \$100 of valuation, no change from the 2014 rate.
- General fund revenues are expected to increase from \$4.7 million to \$4.9 million in the 2015 budget. The increase is largely attributable to an expected increase in property tax collections.
- General fund expenditures are expected to decrease from \$4.87 million to \$4.65 million, primarily because of the fire truck purchase in 2014. No significant changes in city services are expected.
- After transferring \$250,000 to the capital projects fund to save for future capital needs, the budget anticipates no change in the fund balance of the General fund.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide the City of Terrell Hills citizens, taxpayers, customers, and investors and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the City Manager by phone at 824-7401.

BASIC FINANCIAL STATEMENTS

The basic financial statements include integrated sets of financial statements as required by the GASB. The sets of statements include:

- Government – wide financial statements
- Fund financial statements:
 - Governmental funds

In addition, the notes to the financial statements are included to provide information that is essential to a user's understanding of the basic financial statements.

CITY OF TERRELL HILLS, TEXAS
RECONCILIATION OF THE GOVERNMENTAL FUNDS
BALANCE SHEET TO THE STATEMENT OF NET POSITION
DECEMBER 31, 2014

TOTAL FUND BALANCE - TOTAL GOVERNMENTAL FUNDS	\$ 6,635,117
Amounts reported for governmental activities in the Statement of Net Position are different because:	
Capital Assets used in governmental activities are not financial resources and, therefore, are not reported in the governmental funds.	15,568,092
Other long-term assets are not available to pay for current-period expenditures and, therefore, are not reported in the governmental funds:	
Property Taxes Receivable not Collected within 60 Days	730,286
Long-term liabilities, including bonds and capital lease payables are not due and payable in the current period and, therefore are not reported in the governmental funds.	(9,785,000)
The governmental funds report pension and other postemployment benefit contributions as expenditures when paid. However, in the statement of activities difference between pension plan and other post employment benefit contributions and costs for the year are reported as an asset or obligation.	(174,155)
Accrued interest payable on long-term-bonds is not due and payable in the current period and, therefore, not reported in the funds.	<u>(140,814)</u>
TOTAL NET POSITION OF GOVERNMENTAL ACTIVITIES	<u><u>\$ 12,833,526</u></u>

CITY OF TERRELL HILLS, TEXAS
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES AND CHANGES IN FUND BALANCE OF
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED DECEMBER 31, 2014

NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS \$ (96,221)

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital Outlay	588,299	
Depreciation	<u>(910,371)</u>	(322,072)

Governmental funds report proceeds from the sale of capital assets as other financing sources without regard for the carrying value of the asset. On the statement of activities, the proceeds are reduced by the net book value of the capital asset disposed.

(7,875)

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.

48,173

The issuance of long-term debt (e.g. bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the net effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities:

Principal Payments		430,000
--------------------	--	---------

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:

Deferred Pension Obligation	(1,220)	
Accrued Interest on Long-Term Debt	<u>1,576</u>	<u>356</u>

CHANGE IN NET POSITION - GOVERNMENTAL ACTIVITIES \$ 52,361

CITY OF TERRELL HILLS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2014

NOTE A -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below:

1. REPORTING ENTITY

In evaluating how to define the government for financial purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity is made by applying the criteria set forth in GASB Statement 14, "The Financial Reporting Entity" and GASB Statement 61 "The Financial Reporting Entity: Omnibus (an amendment of GASB 14). The definition of the reporting entity is based primarily on the concept of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government. The City has no component units.

2. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The **government-wide financial statements** include the statement of net position and the statement of activities. Government-wide statements report information on all of the activities of the City. The effect of interfund transfers, if any, has been removed from the government-wide statements but continues to be reflected on the fund statements. Governmental activities are supported mainly by taxes and intergovernmental revenues.

The statement of activities reflects the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included in program revenues are reported as general revenues.

Separate **fund financial statements** are provided for governmental funds. All of the City's funds meet the criteria of a **major governmental fund**. The City's governmental funds are the General Fund, Capital Projects Fund and Debt Service Fund. These funds are reflected in single columns in the fund Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances.

The **government-wide financial statements** are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Revenue types, which have been accrued, are revenue from the investments, intergovernmental revenue and charges for services. Property taxes are recognized in the year for which they are levied. Grants are recognized as revenue when all applicable eligibility requirements imposed by the provider are met.

CITY OF TERRELL HILLS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2014

NOTE A -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

Revenues are classified as *program revenues* and *general revenues*. Program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. General revenues include all taxes, grants not restricted to specific programs and investment earnings.

Governmental fund level financial statements are reported using current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Measurable and available revenues include revenues expected to be received within 60 days after the fiscal year ends. Receivables which are measurable but not collectible within 60 days after the end of the fiscal period are reported as deferred revenue. Property taxes which were levied and collected within 60 days of the fiscal period are considered revenue. Taxes receivable but not collected within 60 days are used to finance the budget of the subsequent fiscal year and, accordingly, have been reflected as unavailable revenue (a deferred inflow of resources) and in the fund financial statements.

Expenditures generally are recorded when a fund liability is incurred; however, debt service expenditures, as well as claims and judgments, are recorded only when the liability has matured and payment is due.

The government reports the following major governmental funds:

The General Fund is the general operating fund of the City and is always classified as a major fund. The General Fund is used to account for all financial resources except those required to be accounted for in another fund. Major revenue sources include property taxes, sales tax, and franchise taxes. Primary expenditures are for general government, public safety, public facilities, municipal court and capital acquisition.

The Capital Projects Fund is used to account for all funds collected and disbursed for the street improvements, municipal complex renovation, and other capital projects.

The Debt Service Fund is used to account for all funds collected and disbursed in the retirement of governmental debt.

The City had no nonmajor funds as of December 31, 2014.

CITY OF TERRELL HILLS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2014

NOTE A -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

4. CASH AND INVESTMENTS

State statutes authorize the City to invest in (a) obligations of the United States or its agencies, and instrumentalities; (b) direct obligations of the State of Texas or its agencies; (c) other obligations, the principal and interest of which are unconditionally guaranteed or insured by the State of Texas or the United States; (d) obligations of states, agencies, counties, cities, and other political subdivisions of any state having been rated as to investment quality by a nationally recognized investment rating firm and having received a rating of not less than A or its equivalent; (e) certificates of deposit by state and national banks domiciled in this state that are (i) guaranteed or insured by the Federal Deposit Insurance Corporation, or its successor; or, (ii) secured by obligations that are described by (a) – (e). Statutes also allow investing in local government investment pools organized and rated in accordance with the Interlocal Cooperation Act, whose assets consist exclusively of the obligations of the United States or its agencies and instrumentalities and repurchase assessments involving those same obligations.

Investments are stated at fair value (plus accrued interest) except for money market investments and participating interest-earning investment contracts (U.S. Treasuries) that have a remaining maturity at time of purchase of one year or less. Those investments are stated at amortized cost, which approximates fair value.

5. ACCOUNTS RECEIVABLE

Property taxes are levied based on taxable value at January 1, become due October 1 and are past due after the following January 31. Accordingly, receivables and revenues for property taxes are reflected on the government-wide statement based on the full accrual method of accounting. Property tax receivables are shown net of an allowance for uncollectible.

Accounts receivable from other governments include amounts due from grantors for approved grants for specific programs and reimbursements for services performed by the City. Program grants are recorded as receivables and revenues at the time all eligibility requirements established by the provider have been met.

Reimbursements for services performed are recorded as receivables and revenues when they are earned in the government-wide statements. Included are fines and costs assessed by the court action and billable services for certain contracts. Revenues received in advance of the costs being incurred are recorded as unearned revenue in the fund statements. Receivables are shown net of an allowance for uncollectible.

6. ALLOWANCE FOR UNCOLLECTIBLE ACCOUNTS

Allowances have been established by management based on best available information for a variety of receivables. Allowances for uncollectible taxes in the General Fund and Debt Service Fund have been recorded in the amount of \$16,771 and \$3,728, respectively.

CITY OF TERRELL HILLS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2014

NOTE A -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

7. PREPAID ITEMS

Payments made to vendors for services that will benefit periods beyond December 31, 2014 are recorded as prepaid items in both the government-wide and fund financial statements.

8. SHORT-TERM INTERFUND RECEIVABLES/PAYABLES

During the course of operations, transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as “due from other funds” or “due to other funds” on the balance sheet. Any residual balances between funds have been eliminated in the government-wide statements.

9. BUDGET

An operating budget is adopted each fiscal year for all City funds. The budget is adopted on the GAAP basis of accounting. Additional budgetary information is provided in the required supplementary information.

10. CAPITAL ASSETS

Capital assets, which include land, buildings and improvements, equipment, and infrastructure assets, are reported in the governmental type activities column in the government-wide financial statements. Capital assets such as equipment are defined as assets with a cost of \$5,000 or more. Infrastructure assets include City-owned streets, sidewalks, curbs and bridges. Capital assets are recorded at historical costs if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The Costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Interest has not been capitalized during the construction period on property plant and equipment.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Buildings and Improvements	20 to 50 years
Drainage Improvements	40 to 50 years
Vehicles and Equipment	3 to 15 years
Streets	15 to 20 years

11. COMPENSATED ABSENCES

The liability for compensated absences reported in the government-wide and fund statements consist of unpaid accumulated leave balances. The liability has been calculated using the vesting method, in which leave amounts for employees who are eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included.

CITY OF TERRELL HILLS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2014

NOTE A -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

12. UNAVAILABLE REVENUE/UNEARNED REVENUE

Property tax revenues are recognized when they become both measurable and available in the fund statements. Available means when due, or past due, and receivable within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Property tax revenues not expected to be available for the current period are reflected as unavailable revenue.

Unearned revenues arise when assets are recognized before revenue recognition criteria have been satisfied. Grant and reimbursement revenues, if any, received in advance of expenses/expenditures are reflected as unearned revenue.

13. LONG-TERM OBLIGATIONS

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities under governmental activities in the statement of net position. On new bond issues, bond premiums and discounts are amortized over the life of the bond. Bond issuance costs are expenses as incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

14. NET PENSION OBLIGATION

The net pension obligation represents the cumulative difference between the annual pension cost and the City's contribution to the plan, calculated on an actuarial basis consistent with the requirements of Government Accounting Standards Board Statement No. 27. Expenditures are recognized when they are paid or are expected to be paid with current available resources. The net pension obligation is reported as a non-current liability in the government-wide financial statements.

15. FUND EQUITY

In the fund financial statements, governmental funds report the following classifications of fund balance:

Nonspendable - Represents amounts that cannot be spent because they are either not in spendable form (such as inventory or prepaid items) or legally required to remain intact.

Restricted - Represents amounts that are constrained by external parties, constitutional provisions or enabling legislation.

Committed - Represents amounts that can be used only for the specific purposes determined by a formal action (adoption of an ordinance) of the government's highest level of decision-making authority (City Council). Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

CITY OF TERRELL HILLS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2014

NOTE A -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

15. FUND EQUITY (Cont.)

Assigned - Represents amounts which the City intends to use for a specific purpose but do not meet the criteria of restricted or committed. The City Council has not delegated the authority to make assignments to any other person within the entity.

Unassigned - Represents the residual balance that may be spent on any other purpose of the City.

When an expenditure is incurred for a purpose in which multiple classifications are available, the City considers restricted balances spent first, committed second and assigned third

16. NET POSITION

Net position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

17. INTERFUND TRANSACTIONS

Legally authorized transfers, if any, are treated as interfund transfers and are included in the results of operations of Governmental Funds.

18. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

CITY OF TERRELL HILLS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2014

NOTE B -- CASH AND INVESTMENTS

1. Cash and Cash Equivalents

The City's funds are required to be deposited and invested under the terms of a depository contract. The depository bank deposits for safekeeping and trust with the City's agent bank approved pledge securities in an amount sufficient to protect City funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance. At December 31, 2014, all of the City's deposits were fully collateralized.

2. Investments

The City is required by Government Code Chapter 2256, The Public Funds Investment Act, to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit.

The Public Funds Investment Act ("Act") requires an annual audit of investment practices. Audit procedures in this area, conducted as a part of the audit of the basic financial statements, disclosed that the City's investment practices, management reports and establishment of appropriate policies adhered to the requirements of the Act.

The Act determines the types of investments which are allowable for the City. These include, with certain restrictions, 1) obligations of the U.S. Treasury, U.S. agencies, and the State of Texas, 2) certificates of deposit, 3) certain municipal securities, 4) securities lending program, 5) repurchase agreements, 6) bankers acceptances, 7) mutual funds, 8) investment pools, 9) guaranteed investment contracts, and 10) commercial paper.

The City had no investments as of December 31, 2014.

3. Analysis of Specific Deposit and Investment Risks

GASB Statement No. 40 requires a determination as to whether the City was exposed to the following specific investment risks at year end and, if so, the reporting of certain related disclosures:

- a. Credit Risk - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. At year end, the City was not significantly exposed to credit risk.
- b. Concentration of Credit Risk - The risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the City was not exposed to a concentration of credit risk.

CITY OF TERRELL HILLS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2014

NOTE B -- CASH AND INVESTMENTS (CONTINUED)

3. Analysis of Specific Deposit and Investment Risks (Continued)

- c. Interest Rate Risk - This is the risk that changes in interest rates will adversely affect the fair value of an investment. At year-end, the City was not exposed to interest rate risk.
- d. Custodial Credit Risk - Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the City's name. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the City's name. At year end, the City was not exposed to custodial credit risk.
- e. Foreign Currency Risk - This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the City was not exposed to foreign currency risk.

NOTE C -- PROPERTY TAXES

The City's property tax is levied and becomes collectible each October 1 based on the assessed values listed as of the prior January 1, which is the date a lien attaches to all taxable property in the City. Assessed values are established by the Bexar County Appraisal District. Assessed values are reduced by lawful exemptions to arrive at taxable values. The total taxable value as of January 01, 2014, upon which the fiscal 2014 levy was based was \$1,213,144,443 (i.e., market value less exemptions). The estimated market value was \$1,227,310,366, making the taxable value 98.8% of the estimated market value.

The City is permitted by the Constitution of the State of Texas to levy taxes up to \$2.50 per \$100 of taxable assessed valuation for all governmental purposes. Pursuant to a decision of the Attorney General of the State of Texas, up to \$1.50 per \$100 of assessed valuation may be used for the payment of long-term debt. The combined tax rate to finance general governmental services, including the payment of principal and interest on long-term debt, for the year ended December 31, 2014, was \$0.370525 per \$100 of assessed value, which means that the City has a tax margin of \$2.129475 for each \$100 of assessed value and could increase its annual levy by approximately \$25,833,608 based upon present assessed valuation before the limit is reached. However, the City may not adopt a tax rate that exceeds the tax rate calculated in accordance with the Texas Property Code without holding a public hearing. The Property Tax Code subjects an increase in the effective tax rate to a referendum election, if petitioned by registered voters, when the effective tax rate increase is more than eight percent (8%) of the previous year's effective tax rate.

CITY OF TERRELL HILLS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2014

NOTE D -- CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2014 was as follows:

Governmental Activities	Balances at 1/1/2014	Additions	Transfers/ Disposals	Balances at 12/31/2014
Land	\$ 641,149	\$ -	\$ -	\$ 641,149
Buildings and Improvements	4,703,193	-	-	4,703,193

Vehicles and Equipment	(731,017)	(118,552)	62,463	(787,106)
Furniture and Fixtures	(9,774)	(16,723)	-	(26,497)
Infrastructure	(5,580,496)	(677,599)	-	(6,258,095)
	<u>(6,387,842)</u>	<u>(910,371)</u>	<u>62,463</u>	<u>(7,235,750)</u>
Governmental Capital Assets, Net	<u>\$ 15,898,040</u>	<u>\$ (322,072)</u>	<u>\$ (7,876)</u>	<u>\$ 15,568,092</u>

Land and Construction in Progress are not depreciated.
Depreciation Expense was charged to the governmental functions as follows:

General Government	\$ 21,588
Police Department	44,444
Fire Department	27,930
Development and Public Works	702,472
Administration	113,937
Total Depreciation Expense	<u>\$ 910,371</u>

NOTE E -- UNEARNED REVENUE

In conjunction with the City's street project, the City contracted with San Antonio Water System (SAWS) to replace water and sewer infrastructure under the related streets. San Antonio Water System paid the City the estimated cost of the total project related to SAWS' infrastructure in 2014 and SAWS is entitled to a refund of any unused funds. The payment from SAWS is recorded as unearned revenue until the costs related to the project are incurred.

CITY OF TERRELL HILLS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2014

NOTE F -- LONG-TERM DEBT

In June 2011, the City issued General Obligation Bonds, Series 2011 for \$8,000,000: \$6,000,000 for street and related improvements and \$2,000,000 for renovation of the city hall complex. The bonds mature serially through 2031 and bear interest at rates ranging from 0.37% to 4.59%.

In January 2012, the City issued General Obligation Bonds, Series 2012 for \$2,700,000 to refund the Series 2003 Certificates of Obligation. The bonds mature serially through 2020 and bear interest at rates ranging from 0.67% to 1.97%.

Changes in the City's long-term debt during the fiscal year ending December 31, 2014 follow:

<u>Governmental Activities</u>	<u>Balance Outstanding 1/1/2014</u>	<u>Additions</u>	<u>Retirements</u>	<u>Balance Outstanding 12/31/2014</u>	<u>Due Within One Year</u>
2011 Series	\$ 7,845,000	\$ -	\$ (100,000)	\$ 7,745,000	\$ 100,000
2012 Series	2,370,000	-	(330,000)	2,040,000	330,000
Totals	<u>\$ 10,215,000</u>	<u>\$ -</u>	<u>\$ (430,000)</u>	<u>\$ 9,785,000</u>	<u>\$ 430,000</u>

The annual requirements to amortize all debt outstanding as of December 31, 2014, including interest payments, are as follows:

<u>Year End December 31</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2015	\$ 430,000	\$ 335,553	\$ 765,553
2016	435,000	330,392	765,392
2017	435,000	324,432	759,432
2018	460,000	317,272	777,272
2019	460,000	308,759	768,759
2020-2024	2,670,000	1,321,937	3,991,937
2025-2029	3,330,000	732,867	4,062,867
2030-2031	1,565,000	72,407	1,637,407

 NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
 DECEMBER 31, 2014

NOTE G -- EMPLOYEE RETIREMENT SYSTEM

Plan Description

The City provides pension benefits for all of its eligible employees through a non-traditional, joint contributory, hybrid defined benefit plan in the state-wide Texas Municipal Retirement System (TMRS), an agent multiple-employer public employee retirement system. The plan provisions that have been adopted by the city are within the options available in the governing state statutes of TMRS. TMRS issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information (RSI) for TMRS; the report also provides detailed explanations of the contributions, benefits and actuarial methods and assumptions used by the System. This report may be obtained from TMRS' website at www.TMRS.com.

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS. Plan provisions for the City were as follows:

	Plan Year 2013	Plan Year 2014
Employee Deposit Rate	6.0%	6.0%
Matching Ratio (City to Employee)	2 to 1	2 to 1
years required for vesting	5	5
Service Retirement Eligibility (Expressed as age / years of service)	60/5,0/20	60/5,0/20
Updated Service Credit	100% Repeating Transfers	100% Repeating Transfers
Annuity Increase (to retirees)	70% of CPI Repeating	70% of CPI Repeating

Contributions

Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) cost method (EAN was first used in the December 31, 2013 valuation; previously, the Projected Unit Credit actuarial cost method had been used). This rate consists of the normal cost contribution rate and the prior service cost contribution rate, which is calculated to be a level percent of payroll from year to year. The normal cost contribution rate for an employee is the contribution rate which, if applied to a member's compensation throughout their period of anticipated covered service with the municipality, would be sufficient to meet all benefits payable on their behalf. The salary-weighted average of the individual rates is the total normal cost rate. The prior service contribution rate amortizes the unfunded (overfunded) actuarial liability (asset) over the applicable period for that city. Both the normal cost and prior service contribution rates include recognition of the projected impact of annually repeating benefits, such as Updated Service Credits and Annuity Increases.

The City contributes to the TMRS Plan at an actuarially determined rate. Both the employees and the City make contributions monthly. Since the City needs to know its contribution rate in advance for budgetary purposes, there is a one-year delay between the actuarial valuation that serves as the basis for the rate and the calendar year when the rate goes into effect (i.e., the December 31, 2013 valuation will determine the contribution rate beginning January 1, 2015).

CITY OF TERRELL HILLS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2014

NOTE G -- EMPLOYEE RETIREMENT SYSTEM (Continued)

The annual pension cost and net pension obligation/(asset) are as follows:

Annual Required Contribution (ARC)	\$ 296,603
Interest on Net Pension Obligation	12,105
Adjustment to the ARC	<u>(10,885)</u>
Annual Pension Cost (APC)	297,823
Contributions Made	<u>296,603</u>
Increase (decrease) in net pension obligation	1,220
Net Pension Obligation (Asset), beginning of year	<u>172,935</u>
Net Pension Obligation (Asset), end of year	<u><u>\$ 174,155</u></u>

Fiscal Year	Pension			
	Annual Pension Cost	Actual Contributions	Percentage of APC Contributed	Increase in Net Pension Obligation
2014	\$ 297,823	\$ 296,603	99.6%	\$ 1,220
2013	288,061	286,603	99.5%	1,458
2012	273,140	271,471	99.4%	1,669

The required contribution rates for fiscal year 2014 were determined as part of the December 31, 2012 actuarial valuation. Additional information as of the latest actuarial valuation, December 31, 2013 also follows:

Actuarial Valuation Date	Decemeber 31, 2012	Decemeber 31, 2013
Actuarial Cost Method	Projected Unit Credit	Entry Age Normal
Amortization Method	Level Percent of Payroll	Level Percent of Payroll
Amortization Period	24.9 years - Closed Period	30.0 years - Closed Period
Asset Valuation Method	10 year Smoothed Market	10 year Smoothed Market
Amoritization Period for gains (losses)	30 Years	30 Years
Assumptions:		
Rate of Return	7.0%	7.0%
Salary Increases	Varies by Age and Service	Varies by Age and Service
Inflation Rate	3.0%	3.0%
COLA	2.1%	2.1%

 DECEMBER 31, 2014

NOTE G -- EMPLOYEE RETIREMENT SYSTEM (Continued)

Funded Status and Funding Progress

In October 2013, the TMRS Board approved actuarial changes in (a) the funding method from Projected Unit Credit to Entry Age Normal, (b) the post-retirement mortality assumptions used in calculating liabilities and contribution rates and in the development of the Annuity Purchase Rate factors, and (c) the amortization policy. These actuarial changes were effective with the December 31, 2013 actuarial valuation. For a complete description of the new actuarial cost method and assumptions, please see the December 31, 2013 TMRS Comprehensive Annual Financial Report (CAFR).

The funded status as of December 31, 2013, the most recent actuarial valuation date, is presented as follows:

ACTUARIAL VALUATION DATE	ACTUARIAL VALUE OF ASSETS	ACTUARIAL ACCRUED LIABILITY (AAL)	FUNDING RATIO (1)/(2)	UNFUNDED UNFUNDED AAL (UAAL)	ANNUAL COVERED PAYROLL	UAAL AS A PERCENTAGE OF COVERED PAYROLL
12/31/2013	\$ 8,623,816	\$ 10,610,585	81.3%	\$ 1,986,769	\$ 2,272,821	87.4%

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Actuarial calculations are based on the benefits provided under the terms of the substantive plan in effect at the time of each valuation, and reflect a long-term perspective. Consistent with that perspective, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. The schedule of funding progress, presented as Required Supplementary Information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability of benefits.

NOTE H -- OTHER POST EMPLOYMENT BENEFIT

The City also participates in the cost sharing multiple-employer defined benefit group-term life insurance plan operating by the Texas Municipal Retirement System (TMRS) known as the Supplemental Death Benefits Fund (SDBF). The city elected, by ordinance, to provide group-term life insurance coverage to both current and retired employees. The city may terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1.

The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death); retired employees are insured for \$7,500; this coverage is an "other postemployment benefit," or OPEB.

The city contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year; the intent is not to pre-fund retiree term life insurance during employees' entire careers.

The city's contributions to the TMRS SDBF for the years ended December 31, 2014, 2013, and 2012 were \$3,048, \$2,955, and \$2,640, respectively.

CITY OF TERRELL HILLS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2014

NOTE I -- INTERFUND TRANSFERS/BORROWINGS

During the year, the City transferred \$250,000 from the General Fund to the Capital Projects Fund for future capital projects. Additionally, the Capital Project Fund owes the General Fund \$66,700 for reimbursement of bond issue costs incurred in a prior year.

NOTE J -- TEXAS HIGHER EDUCATION AUTHORITY

On February 9, 1988, the City passed an ordinance creating a nonprofit corporation under Section 53.35(b) of The Texas Education Code. The creation of this nonprofit corporation established a Higher Education Authority (the Authority) for the purpose of assisting in the financing of University of The Incarnate Word. In December 1998, the City amended the articles of incorporation of the Authority in order to bring them into compliance with state law. The amendment allows the Authority to permit financing of accredited primary and secondary schools as provided by state law.

It is the opinion of legal counsel that bonds issued by this nonprofit corporation are secured solely from a pledge of the revenues derived by the local university for whose benefit the nonprofit corporation was established, resulting in no obligation for bonds by the City of Terrell Hills.

In accordance with the terms establishing the nonprofit corporation, the City is not liable for any expenses incurred in establishing or administering the Higher Education Authority. The Higher Education Authority has issued the following obligations:

<u>Entity</u>	<u>Date of Issuance</u>	<u>Date of Maturity</u>	<u>Original Issuance</u>	<u>Estimated Amount Outstanding</u>
Texas Lutheran University	2007	2028	\$ 8,130,000	\$ 6,580,000
Schreiner University	2010	2025	15,660,000	12,368,000
Totals			<u>\$ 23,790,000</u>	<u>\$ 18,948,000</u>

The Texas Higher Education Authority is not consolidated into the financial Statements of the City of Terrell Hills because it does not meet the requirements of being treated as a component unit of the City under governmental accounting standards.

NOTE K -- RISK MANAGEMENT

The City has identified possible risk of losses related to torts; theft of, damage to, or destruction of assets; business interruption; errors and omissions; job-related illnesses or injuries to employees; and other claims or various natures. The City contracts with the Texas Municipal League (TML) to provide insurance coverage for identified risks. TML is a multi-employer group that provides for a combination of modified self-insurance and stop-loss coverage. Contributions are set annually by TML. Liability by the City is generally limited to the contributed amounts, although there are coverage limits of \$1,000,000 for general liability, law enforcement and errors and omissions. Annual contributions for the year ended December 31, 2014, were \$117,877.

CITY OF TERRELL HILLS, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2014

NOTE L -- SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES/COMMITMENTS

Litigation

The City is the subject of various claims and litigation that have arisen in the course of its operations. Management and legal counsel are of the opinion that the City's liability in these cases, if decided adversely to the City, will not have a material effect on the City's financial position.

Commitments

The City has the following construction related commitments:

<u>Project</u>	<u>Total Commitment</u>	<u>Incurred Through December 31, 2014</u>	<u>Estimated Future Commitment</u>
2011 Bond Street Repairs:			
Phase 2 Engineering	\$ 321,978	\$ 232,106	\$ 89,872
Phase 2 Construction	1,563,228	68,840	1,494,388
Total	<u>\$ 1,885,206</u>	<u>\$ 300,946</u>	<u>\$ 1,584,260</u>

NOTE M -- RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In June 2012, the GASB issued Statement 68, Accounting and Financial Reporting for Pensions – an Amendment of GASB Statement 27. The statement improves information provided by governments for defined benefit retirement plans. The Statement is effective for fiscal years beginning after June 15, 2014. Management is currently evaluating the impact of the adoption of this statement on the City's financial statements and it may be significant.

BUDGET AND ACTUAL
DECEMBER 31, 2014

Budgetary Information – The budget is prepared in accordance with accounting principles generally accepted in the United States of America. The City maintains strict budgetary controls. The objective of these controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the City Council and as such is a good management control device. The following are the funds which have legally adopted annual budgets: General Fund and Debt Service Funds.

Budgetary preparation and control is exercised at the department level. Actual expenditures may not legally exceed appropriations at the fund level. Actual expenditures did not exceed appropriations in the General Fund or Debt Service Fund.

STATISTICAL SECTION

The following unaudited Statistical Tables reflect social and economic data, financial trends and fiscal capacity of the City.

This part of the City of Terrell Hills' comprehensive annual financial report represents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about Terrell Hills' overall financial health

Contents

Financial Trends – Tables 1 through 5

These schedules contain trend information to help the reader understand how Terrell Hills' financial performance and well-being have changed over time.

Revenue Capacity – Tables 6 through 9

These schedules contain information to help the reader assess Terrell Hills' most significant local revenue source, the property tax.

Debt Capacity – Tables 10 through 12

These schedules present information to help the reader assess the affordability of Terrell Hills' current levels of outstanding debt, and our ability to issue additional debt.

Demographic and Economic Information – Tables 13 and 14

These schedules offer demographic and economic indicators to help the reader understand the environment within which Terrell Hills' financial activities take place.
